VHHA Analytics harnesses the power of big data and modern technology tools to provide Virginia hospital and health system members with important insights to support enhanced operational efficiency. The VHHA Analytics Team has developed interactive data tools to help hospital officials improve performance, reduce costs, better serve patients, and effectively communicate health care issues. The data portal enable users to access an array of detailed and customized data that can yield hospital-specific, regional, and state trend reports on topics including 30-day readmissions, opioid use, performance improvement metrics, and much more. To learn more about VHHA Analytics, view video tutorials, and request a demo, visit:

<https://tinyurl.com/y9ud7u8z>

HosPAC is VHHA's political action committee. The mission of HosPAC is to provide organized and effective political action, and to support state candidates who will work to improve quality health care through policies supported by Virginia's hospital and health systems. As elected officials in Virginia and Washington make critical decisions affecting Virginia's hospitals and health systems, HosPAC supports candidates for office whose actions show consideration for Virginia health care providers and the communities they serve. To learn more about HosPAC or to contribute, visit www.vahospac.com.

Health Providers Insurance Alliance & RCM&D Healthcare

Health Providers Insurance Alliance (HPIA) and RCM&D Healthcare are working together to offer Virginia hospitals and health systems a complete range of professional liability, property and casualty, and employee benefit programs. Further, the Physician Division provides physicians and groups of physicians with the same professional liability, property and casualty, and employee benefit programs that hospitals and health systems have come to expect.

We offer a wide range of services including professional liability, general liability, umbrella or excess liability, directors' and officers' liability, workers' compensation, property, auto, and other property and casualty coverages. Further, we provide access to alternative risk mechanisms including large deductible programs, self-insurance programs, and captive formation and management. Our health and welfare division offers an array of coverage including life, health, disability (both long- and short-term), accidental death and dismemberment, voluntary, and executive benefits.

Our Risk Consulting Practice is dedicated to assisting clients with their patient safety needs. For example, we have the ability to assist our hospital clients with comprehensive Enterprise Risk Management Programs. Similar physical and clinical based risk management programs are available to physician practice groups.

Let our talented and proven team of professionals work to design a program that is right for you and your medical staff focusing not only on insurance services, but including risk and claims management and loss control programs for professional liability and workers' compensation programs.

Virginia Healthcare Emergency Management Program

The Virginia Healthcare Emergency Management Program was created in 2002 through a partnership between the Virginia Hospital & Healthcare Association and the Virginia Department of Health. The program aims to enable the Commonwealth's health care delivery system to prepare, respond to, and recover from natural and man-made disasters.

Funded through the Assistant Secretary for Preparedness and Response's Hospital Preparedness Program, the program consists of six regional health care coalition designed to foster collaborative planning efforts between health care facilities, first responders, and community partners at the local and regional level. These collaborative efforts aim to identify and address gaps in the health care system's ability to effectively respond to a disaster.

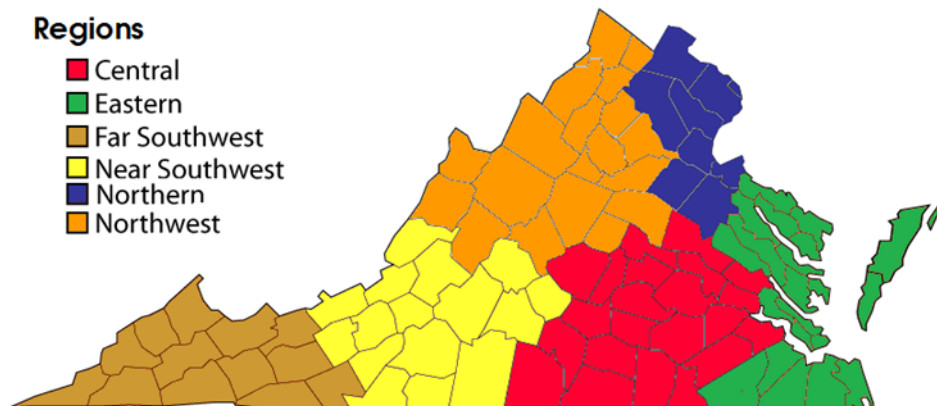

Each health care coalition operates a Regional Healthcare Coordination Center (RHCC), a 24/7 operations center designed to be the coordination and communication hub for health care and community partners during a disaster.

Additional information about the program can be found at www.vhass.org or by contacting staff below.

A turnkey plan to deal with the growing risk of the opioid crisis

The opioid crisis disproportionately impacting Virginia has only been getting worse over the last decade, and many government initiatives are heaping a greater burden on hospitals and their providers. How can Cordant help you?

Cordant Health Solutions™ is one of the only advanced laboratory and pharmacy services companies that offers a complete solution that is good for patients, the hospital and frontline providers.

Advanced laboratory testing in urine, oral fluid, hair or blood and clear reporting give the provider insight on patient behavior, and accurate lab information leads to honest patient dialogue.

Closed loop reporting combines lab results with prescription monitoring program (PMP) information, which provides more actionable data than whether a drug is present or absent in a specimen sample.

Meaningful and actionable analytics accompany a documentation process that helps comply with state and federal guidelines.

Billing to third-party patient insurance or invoicing to your hospital to stop revenue leakage to outside labs. (Payer coverage varies depending on the specific payer policy).

For more information visit cordantsolutions.com or contact your local representative, Alan Hardwick, at ahardwick@cordanthsh.com or 276-698-1344.

A group of five healthcare professionals, three women and two men, are sitting on a set of stairs. They are all wearing blue scrubs. One woman is holding a clipboard and looking at it, while the others are looking on, some smiling. The background is a blurred hospital setting with orange walls and a staircase.

Recruit smarter.
Talent awaits.

Imagine having your patient logistical activities coordinated across your organization. Common length of stay goals are established, patient scheduling is optimized, and nursing units are directly connected to capacity management systems. All of this is possible with **Care Logistics Solutions.**

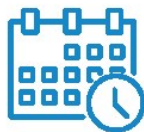

Your Challenges May Include:

- Avoidable Patient Days
- Patient Engagement
- Lost Revenue Opportunities
- Profitability
- Lack of Physician Alignment
- Need for Cost Reductions

Our Solutions Can Help

Grow Profitable Services

Reduce LOS

Increase CMI

Align Clinicians

Create Loyalty

Learn more about our solutions to help your organization drive efficiency and achieve performance excellence.

THE Qualivis ADVANTAGE

WHAT IS QUALIVIS?

We are your state hospital association's contingent workforce management program. A national provider of healthcare workforce solutions providing immediate access, through a single contract to the best professionals available from over 130 staffing agencies, **all at no fee to you.**

We customize our program to meet your specific contingent workforce needs and ensure agency accountability. **We will help you design a smart, cost-effective workforce strategy to fill gaps and build a pipeline of permanent staff.**

QUALITY MEASURES

Clinical agencies are required to be **Joint Commission** certified. We have clinical professionals on staff who can assist with screening and qualifying candidates and who conduct on-site compliance reviews of approved clinical agencies to continuously evaluate agencies for quality assurance.

QUALIVIS SERVICE LINES

Travel Staffing • Per Diem • Locum Tenens • HIM, HIT and Coding • International Nurse Recruitment • Temp to Perm Perm Placement • Critical and Rapid Response Staffing • Non-Clinical & Administrative • Interim Management & Executives

We offer Physician Conducted Medical chart reviews for documentation improvement.

Healthcare reimbursement for services is getting more complicated every year. We bridge the gap between the attending physician and hospital coder so patient acuity is properly reflected, assuring the most accurate reimbursement. Physician-conducted medical chart reviews can happen in real time and significantly impact quality and bottom line results. From clinical chart reviews to payor denial defense, our physicians are a part of your team.

Our Physician Conducted medical chart reviews:

- Improve documentation
- Increase Case Mix Index
- Leverage ICD-10 Queries
- Reduce risk of denials
- Support CDI efforts
- Strengthen hospital revenue

To learn more about what FairCode can do for your hospital, contact:

Harness the power of Ownership

US Acute Care Solutions puts Physician Ownership

in the hands of physicians and patient care at the forefront of every decision we make. Our model ensures that each physician and leader is empowered to meet the challenges facing hospitals and health systems head-on.

- Emergency Medicine
- Observation Medicine
- Hospitalist Medicine
- Integrated Acute Care

Contact Sam Vaill, Chief Development Officer
at svaill@usacs.com or directly 330-491-4080

Type 2 diabetes has a family connection. Make sure you do, too.

More than 1 in 3 American adults are at risk of type 2 diabetes¹ and African Americans are nearly twice as likely to develop diabetes as Caucasian Americans.² Knowing if you are at risk of type 2 diabetes doesn't just affect you—it affects your family, too.

Find out your diabetes risk factors today at AskScreenKnow.com, and encourage others to do the same.

Additional contacts who will be involved with the association

Name	Title	E-mail
------	-------	--------

Name	Title	E-mail
------	-------	--------

Name	Title	E-mail
------	-------	--------

Type of business/organization

Brief description of products/services provided

Association, affiliation, etc., with Virginia hospitals (names of clients, customers and/or hospitals served)

Reason for applying for association membership

Why and how can your company support and further the policy aims of hospitals and health systems and the communities they serve?

It is understood that before becoming a member, dues, in the amount of \$1,500 annually, must be remitted. It also is understood that this completed application will be referred to the VHHA Executive Committee for consideration. After action by the VHHA Executive Committee, the applicant will be notified by email/letter.

Join the VHHA Hospital Grassroots Network. Register to be an advocate for health care in your community. Through our online member mobilization tool, **Muster**, VHHA will send updates and Action Alerts throughout the year, and periodically ask you to send an e-mail to your state delegate or senator to seek their support on important health care issues. The messages are drafted for you, and taking action can take less than one minute. Action Alerts are sent to Hospital Grassroots Members on the most important legislative issues that our hospitals face. Legislators need to hear from people in their districts to understand the local impact of their votes in Richmond. If you previously received VHHA's VoterVOICE e-mail alerts, you are already registered for the Hospital Grassroots Network. Your voice is important. Sign up online today at <https://app.muster.com/250/supporter-registration/>.
